UNIVERSAL HUMAN RIGHTS SERVICE FOUNDATION®

Human Rights are the basic rights of each individual in any part of the world, irrespective, of cast, creed, sex, age, status.

Human Rights means the rights relating to life, liberty, equality and dignity of an individual guaranteed by the constitution and enforced by courts.

The Universal Human Right Service Foundation has dedicated itself with an aim of "Access to Justice and Human Rights for All". In the society especially among the youths we are trying to create an awareness regarding the human rights and the duties prescribed in the constitution and we strongly believe that people in order to change their lives should understand the powers vested with them, then only the social, political and economical process would become successful in the society. Only a profound inward revolution, which alters all our values can create a different environment. An Intelligent social structure and such a revolution can be brought about within us. Totally we are making an attempt of growing and respecting the Human Rights as a culture and creating such a suitable environment are the main objectives of our organization.

The core activities of UHRSF are Human Rights advocacy, creating public awareness, to take up Human Rights violation cases and solve them by all constitutional means possible.
